TROCAL 76.
Weather seal. AluClip.

The best of two worlds.

» TROCAL 76 AluClip.

With TROCAL 76 you can design a living environment that ideally reflects your personal preferences. The modern TROCAL 76 PVC-U window satisfies all requirements of design, function, construction physics and insulation, and it is also eco-friendly and durable. Discover the advantages of TROCAL 76. The AluClip version optimally combines the materials of PVC-U and aluminium.

TROCAL 76. Window and door systems with 76 mm construction depth.

■ Elegant aluminium facing shells.

AluClip gives you the best of two worlds: an elegant aluminium exterior in practically unlimited colours and neutral white PVC-U on the inside.

■ Excellent heat insulation.

While the aluminium facing shells provide maximum elegance, the PVC-U profiles deliver excellent heat insulation.

■ High noise protection.

AluClip also delivers excellent noise protection values.

■ Diversity of design.

The AluClip version provides you with a practically unlimited choice of colour schemes and designs, including elegant anodized and powder coatings.

■ Easy care and durable.

The AluClip version delivers optimum weather protection, excellent stability and is extremely easy to care for.
