TROCAL 76.

Outward opening residential door system.

Safe and space saving.

» TROCAL 76 Outward opening residential door system.

With TROCAL 76 you can have windows and doors that ideally reflect your personal preferences. Outward opening residential doors are used in commercial buildings as emergency exits and in private households to solve problems relating to space constraints in hallways. Our burglar-safe doors give you a choice of modern functional glazing in numerous surface textures and colours, glazing with LED lighting effects, motif glazing and they can also incorporate glazing chosen from the comprehensive ready-to-use programmes of reputed manufacturers.

TROCAL 76. Window and door systems with 76 mm construction depth.

■ Excellent heat insulation.

The thermally separated threshold ensures excellent tightness and heat insulation.

■ Barrier-free threshold.

At only 20 mm in height, the threshold satisfies the home accessibility requirements of DIN 18025.

■ Excellent resistance to forced entry.

TROCAL 76 doors can be equipped to satisfy resistance class RC 2.

■ Diversity of design.

You have a comprehensive range of colours, textured surfaces and elegant designs available to you with AluClip.
